

IPETRONIK annual review 2010

**Dear Sir or Madam,**

another eventful year for us is coming to an end.

2010 was a big challenge for all of us and we proved our capability and efficiency. Our new IPETRONIK product developments and growing business areas highlight a successful year. We have summarized these innovations in a short annual review for you.

First of all we would like to thank you for your confidence and interest in 2010 and hope for continued cooperation and partnership in 2011. We also hope to support you in future as a reliable partner for challenges in data acquisition and automotive technology. With investments in our staff and facilities, we already created the basis for the upcoming year.

Convince yourself! - We are looking forward to your inquiries.

**We wish you and your family a joyful Christmas season, a Happy New Year, and all the best for 2011.**

Best Regards

Your IPETRONIK - Team

**New Products 2010**

Our new leading products are designed to meet changing requirements and demands especially in the field of new power train technologies and HVAC developments.

**High Voltage Iso DAQ**

4 channel high voltage acquisition device for tests with electric and hybrid vehicles

**IPEfms**

"Plug&Play-Logger" for OBD2 and FMS applications
